collecting_society - Webfrontend #719

Public browsable objects

11/06/2018 04:56 PM - Alexander Blum

Status:	Neu	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:		**Estimated time:**	3.00 hours
Target version:	Repertoire 3) Testing phase III	**Spent time:**	0.00 hour

Description

As soon as the public api (machine readable) is decided, there's no reason to make the repertoire also human readable.
All views and acls need to be checked then and the acl needs to be set within the templates.
The main resources should then be added to the frontend resource.
