Description			
<p>Meik: on a "nice to have" basis, i really like the option of filtering mails by headers (like mails from redmine). so it could be neat to have something like</p> <ul style="list-style-type: none">• X-C3S-repertoire-artist: a0000000132 (i.e., if there's a particular artist this mail is intended for; same for release/creation)• X-C3S-repertoire-issue-type: (validation error claim profile ...) (some expendable code what kind of automatic mail this is)
