

## collecting\_society - Schnittstellen #364

### Add autoregistration via c3sMembership api

04/17/2017 04:16 AM - Alexander Blum

<b>Status:</b>	Neu	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Sarah Stoffels	<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	2.00 hours
<b>Target version:</b>	Repertoire 6) Post Production	<b>Spent time:</b>	0.00 hour
<b>Description</b>			
Autoregistration via c3sMembership api should be possible.			
This means an autoregister view to			
<ul style="list-style-type: none"><li>• accept a token via URL (+ email?), e.g. /register/EMAIL/TOKEN</li><li>• ask the membership db for the token (+ email?) via api</li><li>• if the token is accepted<ul style="list-style-type: none"><li>◦ create the user using the provided information in the response</li><li>◦ log the user in</li><li>◦ provide user feedback via flash message</li></ul></li><li>• if the token is not accepted<ul style="list-style-type: none"><li>◦ redirect to /</li><li>◦ provide minimal user feedback via flash message</li></ul></li></ul>

#### History

##### #1 - 04/17/2017 04:16 AM - Alexander Blum

@Sarah: I assign the c3sMembership api related tasks to you, as you wanted to take a look into it. If you don't want it, just assign them to nobody.

##### #7 - 10/08/2019 03:50 PM - Alexander Blum

- Project changed from repertoire to collecting\_society

##### #8 - 10/11/2019 01:45 PM - Markus Lorenz

I don't quite get the purpose. Which kind of registration is meant? Registration in general for C3S membership or only for repertoire? In case of the latter then I don't quite see why Membership should handle any tokens for repertoire. Can't it handle its registration process by itself? Retrieving

information from Membership like the email address is another discussion. But Membership should not care whether or how someone is registered for repertoire.
