Upload uids for files

04/17/2017 05:21 AM - Alexander Blum

Status:	Neu	Start date:	
Priority:	Niedrig	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	2.00 hours
Target version:	Repertoire 4) Production phase I	Spent time:	0.00 hour
Description			
Currently the filename hash is used for identification of a temporary upload file, which prevents the user from uploading files with the same name. This could be circumvented, if the client would generate a uid for the file and communicate it to the upload api.			

History

#1 - 10/08/2019 03:40 PM - Alexander Blum

- Target version changed from 4) Production phase I to Repertoire 4) Production phase I

#2 - 10/08/2019 03:50 PM - Alexander Blum

- Project changed from repertoire to collecting_society
