

collecting_society - Userfeedback #765

Contribution Duplikate

11/12/2018 09:39 PM - Julian Tillmann

Status:	Neu	Start date:	
Priority:	Niedrig	Due date:	
Assignee:	Alexander Blum	% Done:	0%
Category:		Estimated time:	0.50 hour
Target version:	Repertoire 2) Testing phase II	Spent time:	0.00 hour
Description			
Ich kann Beiträge mehrfach für denselben Artist und denselben Contribution Type anlegen. Sowohl für dieselbe VG als auch für unterschiedliche VGs, das ist verwirrend. Könnte man das unterbinden?

at least, I added a multi-field validator on the frontend side; ref #765

History

#1 - 11/21/2018 04:42 PM - Thomas Mielke

- Related to Userfeedback #768: Duplikate Tariff Category added

#2 - 11/21/2018 04:42 PM - Thomas Mielke

- Assignee set to Werkeverwaltung

- Target version set to 2) Testing phase II

#3 - 03/16/2019 11:18 PM - Alexander Blum

- Estimated time set to 0.50

On submission the data can be checked.

#4 - 03/17/2019 10:49 AM - Alexander Blum

- Priority changed from Normal to Niedrig

#5 - 04/22/2019 06:34 PM - Thomas Mielke

- Assignee changed from Werkeverwaltung to Alexander Blum

Tried something like this in edit_creation (and add_creation):

```
dupe_found = False
for item in _contributions:
    if (item['artist'][0].id == create['artist'].id and
        item['role'] == create['role']):
        dupe_found = True
        break
# append contribution
if not dupe_found:
    CreationContribution.create([create])
```

But the role in the sequence is an int whereas the role in the _contributions dict is a uuid. What's the raison d'être?
